

STEMMANN-TECHNIK

Cable Trolley, KW215

TECHNICAL DATA

Type	KW215
Load capacity	250 kg
Travel speed	up to 180 m/min
Roller	Ø 100 mm, Polyurethane
Guide roller	Ø 80 mm, Polyamide
Counter roller	Ø 90 mm, Polyurethane, spring-loaded
Main application	Over head bridge cranes / RTG / RMG
Cable clamping	Block-, V-clamping for flat- and round cable
Number of supports	1
Product benefits	Rubber ropes optionally
	Assembly-friendly; cable installation from one side
	Jumping secured due to spring guided counter roller (preventive cable protection)
	All parts resistant against maritime climate
	Compact design
	Polyurethane running roller (low-noise / wear-resistant design)
	Life time lubricated roller
All parts changeable in system set up
