## Cable Trolley, KW320

### TECHNICAL DATA

Type	KW320
Load capacity	1000 kg
Travel speed	up to 240 m/min
Roller	Ø 80 mm up to 140 mm, Polyurethane
Guide roller	Ø 60 mm up to 100 mm, Polyurethane
Counter roller	Ø 60 mm, Polyamide
Main application	for various crane applications in harbours and industry areas
Cable clamping	Block-, V-clamping for flat- and round cable
Number of supports	up to four supports in vertical arrangement
Product benefits	Rubber ropes optionally
	All parts resistant against maritime climate
	Compact design
	Polyurethane running roller (low-noise / wear-resistant design)
	Life time lubricated roller
	All parts changeable in system set up
	For combinations of flat and round cables
	Individual adjustable for customers i-beam profile
	Supports width/radius to customers requirements
